Address:

7547 Maxwelton Road, Clinton, Coupeville

Price:

2800.00 \$

sold..... 1996 prowl 16 ft clean little camper is ready to take on the road. she needs the roof sealed. I had no leaks bul left the skylights open to bring in air during a couple rainy months! doggone she was perfect before i did that. she needs a small part of the ceiling repaired as I had the insulation replaced. it has everything you need to live in on the road and it was all in working order when i purchased it 2 years ago from Paulsbo RV in Mt Vernon. I purchased it to live by my brother when he was in his last stages of cancer but he sadly passed away too quickly. i've kept it hoping to learn to use it but it's just too difficult for me.

it has a very comfy double bed plus dining area benches that convert to a bed. both large overhead storage areas convert to bunks. has bath with toilet, sink, shower and storage. kitchen is equipped with a cute stove and oven, microwave and sink. has furnace, all the small safety features, radio, electric lights or propane. it has a screen door and awning too. outside lighting. good tires. only serious inquiries please. 2800 or best offer over 2,200. i'm already taking a huge loss and kinda bummed cause its a good little rig. so please don't try my patience. thanks for your interest. I'd do a trade plus pay extra for a road worthy camper

van. text me at 206-214-8324 for a range view. I have no other specific information and something was answered. If you will need to view it, you can see
